Where Science Happens!

Awards for Excellence Past Awardees

2006

Chairman's Award

Presented by Randy Carson, Event Chair, Eaton

McGowan Institute for Regenerative Medicine

McGowan Institute for Regenerative Medicine develops therapies that repair or replace damaged organs and tissues resulting in recognition, economic development, saved lives and reduction of health care costs in the region.

Advanced Manufacturing & Materials Award

Presented by Kennametal Inc.

John J. Craig and F. Gary Kovac

Supply Systems, Inc.

They have combined cutting edge materials and a greatly simplified manufacturing process to revolutionize the Radio Frequency Identification manufacturing process.

Catalyst Award

Presented by FedEx Ground

Red Whittaker, Ph.D.

Robotics Institute

Carnegie Mellon University

Red has made possible the dream of being able to explore both inner and outer space through robotics. He has done more than any other individual to promote the image of Pittsburgh as Robosburgh.

Corporate Innovation Award

Presented by Reed Smith LLP

Vocollect, Inc.

Pioneer and world leader in voice recognition technology. Voice directed distribution systems help companies in a variety of industries conduct business more effectively, productively and cost efficiently.

Elementary Educator Award

Presented by Eaton

Scott Sundgren

South Fayette Township School District

He creates a technology environment where the students have a greater control in the process and individual outcomes.

Middle Level Educator Award

Presented by Westinghouse Electric Company

Laurie R. Ahrenholtz

North Hills School District

Ms. Ahrenholtz was awarded three mini grants for original, creative, educationally innovative projects that benefit the entire student body.

High School Educator Award

Presented by Bayer Corporation

Nicholas S. Kovacic

Greene County Career and Technology Center

As Drafting Instructor, developed a dynamic teaching tool called Drafters Inc., a School-To-Work company.

University / Post-Secondary Educator Award

Presented by PPG Industries Foundation

Jennifer Cartier, Ph.D.

University of Pittsburgh

Dr. Cartier helped to create Pittsburgh Partnership of ENERGIzing Science in Urban Schools, an innovative collaboration between the University of Pittsburgh and Pittsburgh School District.

Entrepreneur Award

Presented by New Perspective

Lawrence Rhoades

The Ex One Company

Developer and supplier of innovative manufacturing technology and equipment.

Start-up Entrepreneur Award

Presented by Pittsburgh Technology Council

Richard D. McCullough, Ph.D.

Carnegie Mellon University and Plextronics, Inc.

Plextronics is quickly becoming a leader in the design of printed electronics such as photovoltaics, organic light emitting diodes, radio frequency identification tags and touch panels.

Environmental Award

Presented by Eaton

Pittsburgh Parks Conservancy

Pittsburgh Parks Conservancy is fulfilling its mission to restore, revitalize, renew and preserve Pittsburgh City Parks...improving Pittsburgh's quality of life.

Information Technology Award

Presented by Carnegie Science Center

Raul Valdes-Perez, Ph.D.

Vivisimo, Inc.

His discovery of clustering technology is empowering organizations and consumers to retrieve more precise results and manage information overload intelligently and productively.

Life Sciences Award

Presented by Pittsburgh Business Times

Savio L-Y. Woo, Ph.D., D.Sc. (Hon.)

Musculoskeletal Research Center

Center for Bioengineering

University of Pittsburgh

His work has revolutionized the field of orthopedic biomechanics and served as the foundation upon which many patient rehabilitation protocols are currently based for various types of ligament and tendon injury.

Media Award

Presented by KDKA-TV

Bayer Corporation and its Making Science Make Sense® annual research project, the Bayer Facts of Science Education survey

Bayer's Making Science Make Sense® annual research project, the Bayer Facts of Science Education survey sets a standard for how to advance science literacy.

A Pittsburgh-based company in a position of leadership for the future of our region and nation.

School District Award

Presented by Siemens

Hopewell Area School District

Hopewell Area School District has demonstrated excellence in secondary science education by actively engaging in work to strengthen their science program by establishing partnerships, and teaching science by doing science.

Junior Division Student Award

Presented by Bombardier Transportation

Breean Gilbert
Ambridge Area School District

Intermediate Division Student Award
Presented by Girls, Math & Science Partnership
Katie Cushma
St. Thomas More School

Senior Division Student Award
Presented by Sony Technology Center - Pittsburgh
Jessica Klabnik
Freeport Area School District

2006 Honorable Mentions

2005

Chairman's Award

Presented by Jerry R. Whitaker, Event Chair, Eaton

FedEx Ground

Reshaped and redefined small-package ground delivery market to become the industry leader.

Advanced Manufacturing & Materials Award

Presented by Kennametal Inc.

Paul Arch

NOVA Chemicals

Consistently a proven leader and facilitator of cutting edge technologies.

Catalyst Award

Presented by FedEx Ground

Steven G. Zylstra

Pittsburgh Technology Council and Catalyst Connection

Influences technological growth and development throughout the region and beyond.

Corporate Innovation Award

Presented by Reed Smith LLP

Marlin H. Mickle, Ph.D.

University of Pittsburgh

Empowers students to experience first-hand the process of developing innovation.

Elementary Educator Award

Presented by Eaton

Marguerite Barger, Lisa Faddis, Jim Hopton and Bill Phillips

Jefferson-Morgan School District

Advocate unique project-based learning unit that meets multiple student objectives.

Middle Level Educator Award

Presented by Westinghouse Electric Company

Bethany Foster-Wilhelm

Pittsburgh School District

Commits to environmental education, exposing students to outdoor learning opportunities.

High School Educator Award
Presented by Bayer Corporation
James G. Rutkowski
Erie City School District
Inspires students to get involved in the sciences through real life applications.

University / Post-Secondary Educator Award
Presented by PPG Industries Foundation
Winston Erevelles, Ph.D.
Robert Morris University
Utilizes "Learning Factory" to provide students an environment for lifelong learning.

Entrepreneur Award
Presented by New Perspective
Peter M. DeComo
Renal Solutions, Inc.
Leads development efforts of revolutionary kidney dialysis system for hemodialysis treatments.

Start-up Entrepreneur Award
Presented by Pittsburgh Technology Council
Keith LeJeune, Ph.D.
Agentase LLC
Protects the nation through discovery and creation of chemical sensors for detection of Chemical Weapons of Mass Destruction.

Environmental Award
Presented by Eaton
Margaret H. Dunn
Stream Restoration Incorporated
Improves passive treatment technology to increase water quality.

Information Technology Award
Presented by Fisher Scientific
Richard Pethia
Software Engineering Institute, Carnegie Mellon University
Remains established leader of internet security and influences creation of computer response centers throughout the world.

Life Sciences Award
Presented by Pittsburgh Business Times
Stephen F. Badylak, D.V.M., Ph.D., M.D.

McGowan Institute for Regenerative Medicine
Develops tissue engineering technologies utilized on a world wide basis.

Media Award
Presented by Carnegie Science Center
Jennifer Bails
Pittsburgh Tribune-Review
Communicates the profound impact science has on readers' lives and inspires those affected most by medical technologies.

Junior Division Student Award
Presented by Bombardier Transportation

Chairman's Award
Presented by Jerry Whitaker, Event Chair, Eaton
University of Pittsburgh Medical Center
Generated enhanced quality, access and efficacy of clinical services provided,
enhanced economics from the commercialization process and generated
thousands of skilled jobs.

Advanced Manufacturing & Materials Award

Presented by Kennametal Inc.

Greg W. Needham

Robert A. Erickson

William M. Long

Kennametal Inc.

Developed, designed and tested the patented KM® Micro Tooling System.

Catalyst Award

Presented by Pittsburgh Technology Council

Benno Bernt, Ph.D.

Carnegie Mellon University, Griffin Group Partners, LP

Catalyst in Technology Transfer – bringing university inventions into society, and spurring multiple new business formations throughout the region.

Elementary Educator Award

Presented by Eaton

Tim Landry

Seneca Valley School District

Continues to establish innovative programming which inspires his students to interact with science curriculum.

Middle Level Educator Award

Presented by Westinghouse Electric Company

Gary Popiolkowski

Chartiers-Houston School District

Inspiring students to participate in and learn from hands-on, community-related projects.

High School Educator Award

Presented by Bayer Corporation

Janet R. Waldeck, Ph.D.

South Fayette Township School District

Dedicated to motivating students to explore the role of science in real world situations.

University / Post-Secondary Educator Award

Presented by PPG Industries Foundation

David Yaron, Ph.D.

Carnegie Mellon University

His rare combination of excellent research, phenomenal teaching and innovative educational software development is a source of creative inspiration to both faculty and students.

Entrepreneur Award

Presented by New Perspective

Gerald E. McGinnis

Respiroics, Inc.

His simple desire to help people breathe better became the foundation of Respiroics, a company that offers more than 100 products, all centered on the respiratory medical device market.

Environmental Award

Presented by Eaton

Eric J. Beckman, Ph.D.

University of Pittsburgh

Designed revolutionary "CO²-philes," making carbon dioxide a more useful solvent, both ecologically and economically.

Information Technology Award

Presented by Carnegie Science Center

Tuomas Sandholm, Ph.D.

CombineNet, Inc.

Through his research, he has developed a software solution that effectively manages complex sourcing, procurement and resource allocation problems in the marketplace.

Life Sciences Award

Presented by Pittsburgh Business Times

John W. Mellors, M.D.

University of Pittsburgh School of Medicine

His multidimensional work has revolutionized evaluation, treatment and the prognosis of HIV and AIDS infection. Quality and duration of life for affected patients worldwide has been improved.
