SCIENCE CENTER HOSTS UGLY HOLIDAY SWEATER PARTY AT NEXT 21+ NIGHT!

NEXT NO-KIDS NIGHT FEATURES HOLIDAY FUN WITH A SCIENTIFIC TWIST

PITTSBURGH, Nov. 28, 2016 — Carnegie Science Center encourages guests to don their best ugly holiday sweaters for the next no-kids night. 21+ Holiday Party will get guests in the holiday spirit on Friday, Dec. 9, from 6 – 10 pm.

Guests will have the chance to participate in holiday-themed activities including making fake snow, measuring pH with poinsettias, learning about Christmas light circuits, and more!

Along with the chance to explore four floors of exhibits, visitors to 21+ Night can also see the Science Center’s newest exhibit, BodyWorks. BodyWorks uses interactive exhibits, live shows, and demonstrations to explore the blood, guts, bones, brains, senses, and mechanics of the human body. Visitors can pump a heart, stretch intestines, make a skeleton dance, see actual preserved human organs, and more!

As always, 21+ Night features cash bars, snacks available for purchase, and the chance to experience the exhibits with no kids! Live music will be provided by “Mistletoe Socks.” Participants get a discount on Omnimax and laser shows that evening.

Proper identification is required, and all guests must show ID at the door. Tickets cost $10 in advance, and $15 at the door.

21+ Nights are sponsored by Walnut Capital, Cohen & Grigsby, Wilson McGinley, Macy’s, and Steel City Media.

For more information and to register, visit CarnegieScienceCenter.org.

About Carnegie Science Center
Carnegie Science Center is dedicated to inspiring learning and curiosity by connecting science and technology with everyday life. By making science both relevant and fun, the Science Center’s goal is to increase science literacy in the region and motivate young people to seek careers in science and technology. One of the four Carnegie Museums of Pittsburgh, the Science Center is Pittsburgh’s premier science exploration destination, reaching more than 700,000 people annually through its hands-on exhibits, camps, classes, and off-site education programs.

About Carnegie Museums of Pittsburgh
Established in 1895 by Andrew Carnegie, Carnegie Museums of Pittsburgh is a collection of four distinctive museums: Carnegie Museum of Art, Carnegie Museum of Natural History, Carnegie Science Center, and The Andy Warhol Museum. In 2015, the museums reached more than 1.4 million people through exhibitions, educational programs, outreach activities, and special events.
