

Are you interested in starting a BrainCake Club for your after-school program, Girl Scout troop, or community center?

The Girls, Math & Science Partnership is pleased to offer a fun new resource for informal learning environments! The BrainCake Club afterschool kit, or BrainCake Bundle, includes 30 of each of the following:

- ✿ T-shirts
- ✿ BrainCake career door hangers
- ✿ Can*TEEN bookmarks
- ✿ Buttons
- ✿ Stickers
- ✿ Book covers
- ✿ Composition books
- ✿ "Great Female Difference Makers" timeline posters

The BrainCake Bundle also includes 15 biographies of female difference makers, two hands-on activities (with supplies for 30 and instructions), one community math activity, one *Can*TEEN: A Kit for the Girl Who Wants to Change the World* (a career-exploration toolkit for girls), and one *The Girl Solution: A Gender Equity Toolkit*.

The Girl Solution is an educator resource that provides tested communication strategies, techniques, and resources – including evidence-based methodology and teaching techniques, profiles of women mentors in STEM, evaluation instruments, classroom tools, and more – to ensure that girls are actively engaged in and beyond the classroom.

In *The Girl Solution*, you'll also find tips on how to effectively use BrainCake.org, our engaging and dynamic STEM website for girls. BrainCake.org is full of games and experiments, career information and biographies of women in science, homework help, multimedia resources, and cool science news. It's also home to scholarship information, quizzes and polls, forums/blogs, and event listings for GMSP programs and STEM programs hosted by organizations around the nation.

The BrainCake Bundle costs \$750 and includes materials, activities, and curriculum for 30 students – a semester's worth of science fun for girls!

To purchase or for more information, contact Emily Sturman at sturmane@carnegiesciencecenter.org or 412.237.1532 for an order form.
